Why *FellowScript*?

What makes FellowScript special?

- Clean, typeset Bible reading
- Highlight verses in six colors
- Notes tied to specific verses
- Study groups share notes together
- Daily AI devotional check-ins

— Built for Groups

I found Christ through a church family, then lost that family when our church split. I built FellowScript to be a digital home that could keep people nurturing each other's faith regardless of where they are.

Faith was never a solo journey

When was the last time you talked about your faith on a random day in a week? Church gives us Sunday, but growing in faith happens in all the days around it. That's the gap FellowScript fills in.

Spotify description

Sunday is powerful, but then Monday comes. Most of us leave church with questions in our heads. Studies show that over half of Christians walk with God in private, not because we don't care, but because there's nowhere to bring it past Sundays. FellowScript is that place. Your digital home, with a family waiting to hear from you.
